2019

B.Sc.

3rd Semester Examination

GEOGRAPHY (Honours)

Paper - C 5-T

Full Marks: 60

Time: 3 Hours

The figures in the margin indicate full marks. Candidates are required to give their answers in their own words as far as practicable.

Group - A

Answer any ten questions:

10×2=20

- 1. What is Aerosol?
- 2. What do you mean by Heat Budget ?
- 3. What is O₃?
- 4. What is Catabatic and Anabatic wind?
- 5. What do you mean by dewpoint Temperature ?
- 6. Define Frontogenesis.

[Turn Over]

- 7. What is Barotropic wind?
- 8. What do you mean by 'eye of cyclone'?
- 9. Define "Zero Coriolis Force Zone".
- Define water spout and wind shear situation during Cyclogenesis stage.
- 11. Define ENSO.
- 12. What is Low Zonal Index of Jet Stream?
- 13. What do you mean by 'Brust of Monsoon'?
- 14. What is frontal fog?
- 15. What do you mean by Heat Budget?

Group - B

Answer any four questions:

4×5=20

- Explain the Environmental Significance of Ozone Layers.
- Explain mechanism and consequences of inversion of Temperature.
- 18. Discuss the genesis Mechanism of Mid-Latitude cyclone.

- State the Geostrophic Balance of wind associated with pressure gradient force and centrifugal force.
- 20. Discuss about the life cycle of thunderstorm.
- 21. Explain the role of Tibetan plateau on the Indian Monsoon.

Group - C

Answer any two questions:

 $2 \times 10 = 20$

- 22. Discuss different controlling factors of insolation.
- 23. State the main causes of temperature inversion and mention the types of temperature inversion. 5+5
- Discuss the main features of the climatic classification system developed by Koppen. Mention its merit and limitation.
- 25. What do you mean by Global Warming? Critically examine the adverse effect of Global Warming. 10
